

Lindsay Krueger
Associate Director, Strategy

Lindsay Krueger is a Global Strategy Lead for Collins Aerospace, an RTX business. She is responsible for the strategic direction and implementation of business growth opportunities, market analysis, strategic business planning, and partnerships focused on secure and strategic communications, simulation, and training. Lindsay also serves as the Global Co-Chair for RTXVETS, RTX's Armed Services Community Employee Resource Group, and an advisor for the Military Families Steering Committee.

Since joining Collins in 2018, Lindsay has held positions of increasing responsibility within the Mission Systems Strategic Business Unit including profit and loss ownership. Prior to joining Collins, Lindsay was a project engineer at Gulfstream Aerospace where she led avionics and special mission aircraft programs. Lindsay holds an MBA from Indiana University and a bachelor's degree in mechanical engineering from Georgia Tech.

Lindsay is married to her husband, Dan, who is currently serving in the United States Army. She is a vocal advocate for Military Spouse employment, career continuity, and advancement, and is active in her community as a grant writer and advocate for school safety initiatives. The Kruegers live in Fayetteville, North Carolina with their two children.
